

Parent Workshop

Bishops Preparatory School

What has changed?

The digital generation we teach and raise in our homes

Children see the world differently and communicate on a digital level.

The world is becoming one LARGE touchscreen.

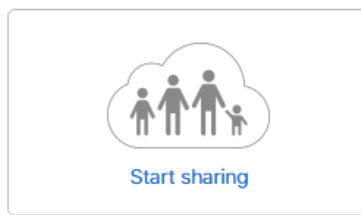

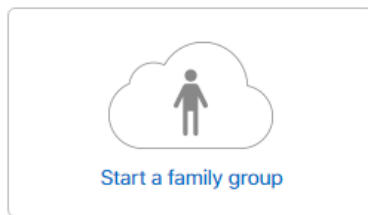

The iPad is a mobile multi-media toolkit.

Strategies to Help Parents

Family Sharing

Set up a family sharing group – up to six people

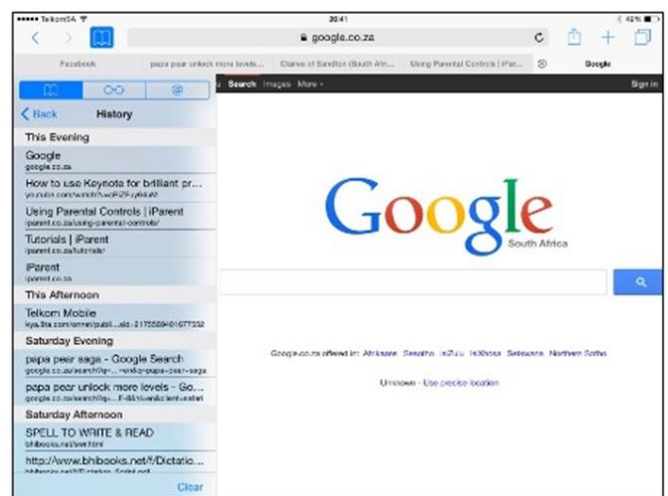

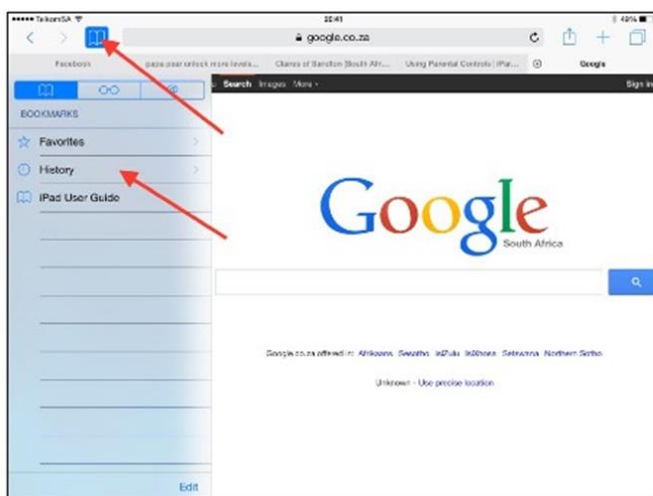

Create an Apple ID for your son and then add him to your family group

Turn on purchase sharing - you'll be asked to confirm all purchases initiated by family members

Learn more: <http://bit.ly/FamilySharingParents>

Monitor Internet Browsing

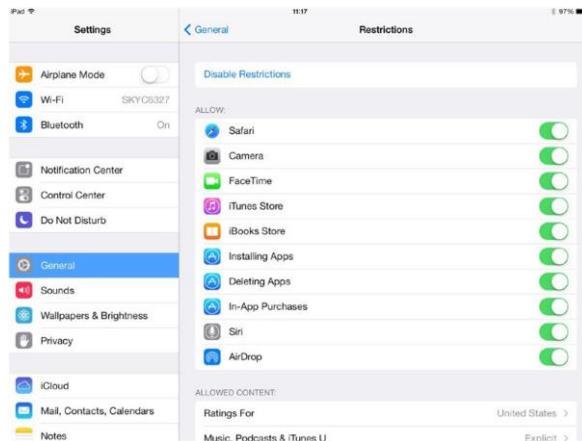

Access the 'History' in Safari or Google Chrome

Set Restrictions

Block or limit specific APPs and features on iPad

In settings go to General > Restrictions

Learn more: <http://bit.ly/settingrestrictions>

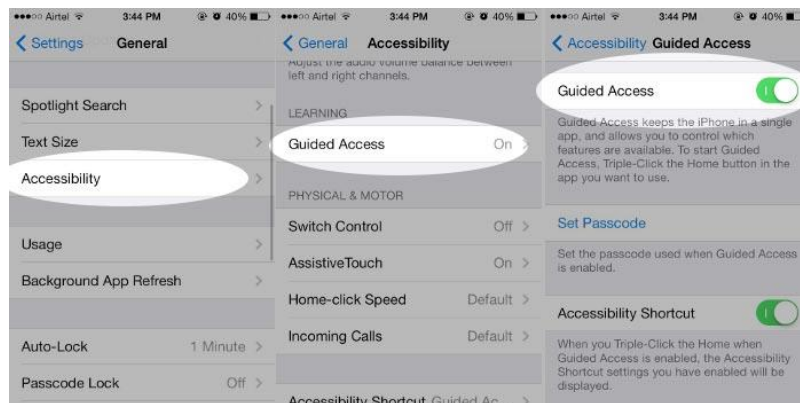

Guided Access

Temporarily restricts use to a single APP

Set time limits for an APP

Disables areas of the screen that aren't relevant to a task

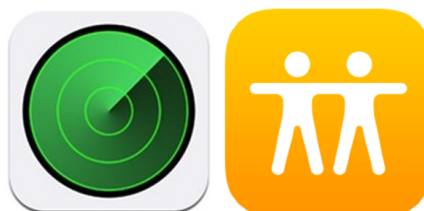

Disables hardware buttons - you control which app features are available
